

POSTER PRESENTATIONS

No	AbsRef	Title	Presenter
PP-01	84	Unraveling the pathogenesis of familial mediterranean fever: insights into pyrin signaling and therapeutic prospects	Flore Wouters
PP-02	85	Assessing the Efficacy of Buzzy® in Pain Reduction During Canakinumab Administration for Familial Mediterranean Fever	Zeynep Özasan
PP-03	86	Tonsil Proteomics Profile of Patients with Periodic Fever, Aphthous Stomatitis, Pharyngitis, and Adenitis Syndrome (PFAPA)	Hafize Emine Sönmez
PP-04	87	Iron deficiency in familial Mediterranean fever: a study on 211 adult patients from the JIR cohort	Ilenia Di Cola
PP-05	89	The needed daily dose of colchicine in patients with Familial Mediterranean Fever may be higher in women	Ilenia Di Cola
PP-06	90	Assessing the readiness of pediatric patients with Familial Mediterranean Fever to transition to adult-oriented treatment in a region endemic to FMF	Sıla Atamylıdız Uçar
PP-07	92	Investigation of serum TWEAK protein levels in familial mediterranean fever patients	Ayşe Berna Cengiz
PP-08	94	A case of FMF and associated amyloidosis with multiorgan involvement after diagnosis of polyarteritis nodosa	Ali Ekin
PP-09	96	Characteristics of late-onset Familial Mediterranean fever (FMF) patients	Selime Ermurat
PP-10	97	The Role of Tenascin-C in the pathophysiology of Familial Mediterranean Fever	Metin Ozgen
PP-11	98	The Evaluation Of Health Status Of Familial Mediterranean Fever Patients Having Homozygous M694V Mutation	Demet Yalçın Kehribar
PP-12	99	Spondyloarthropathy Findings in Familial Mediterranean Fever Patients, a Cohort Study	Saliha Sunkak
PP-13	100	Unusual cause of hepatomegaly in a Romanian woman	Rim Bourguiba
PP-14	101	Autoinflammatory diseases: a diagnostic challenge in the Maghreb countries: Experience from Tunisia	Rim Bourguiba
PP-15	102	Is there a relationship between the presence of entesitis and disease severity in familial mediterranean fever patients with and without amyloidosis?	Duygu Şahin
PP-16	103	A Case of Familial Mediterranean Fever Presenting with Erysipelas-like Erythema on the Face	Aysegul Avcu
PP-17	104	Navigating Complexity: A Nuanced Presentation of Porphyria, FMF, Behçet's, and Celiac Disease	Salsabeel Abujalala
PP-18	107	Can the M694V homozygous genotype of familial Mediterranean fever be predicted based on clinical findings?	Eray Tuncce
PP-19	110	Anti-TNF usage in Familial Mediterranean Fever	Ahmet Kıvanç Cengiz
PP-20	111	Familial Mediterranean fever in Russian Federation: the first preliminary data of nationwide registry	Mikhail Kostik
PP-21	112	Comparison of Interferon Regulatory Factor, Interferon Alpha and Beta in those with Family Mediterranean Fever and the healthy control group	Arif Babayiğit
PP-22	113	Juvenile idiopathic arthritis associated with Crohn's disease as mask of Familial Mediterranean Fever: a clinical case	Mikhail Kostik
PP-23	114	Beschet's disease in Russia: the retrospective preliminary data of multicentric study	Mikhail Kostik
PP-24	117	Early Diagnosis in Familial Mediterranean Fever	Mehmet Engin Tezcan
PP-25	118	A case of a patient with FMF presenting with fever and myalgia	Taylan Kaplan
PP-26	119	Insights into the Clinical Manifestations and Genetic Profile of Familial Mediterranean Fever among adult patients: A Multicentric Study in Tunisia	Rim Bourguiba
PP-27	121	Frequency, distribution and related factors of secondary rheumatological disease in colchicine-resistant FMF patients	Abdullah Doğan
PP-28	123	A Case of Protracted Febrile Myalgia Syndrome with Atypical Course and Severe Asymmetric Loss of Muscle Strength	Rabia Deniz
PP-29	124	Canakinumab uses in Familial Mediterranean fever and Multiple Sclerosis	Fatih Albayrak
PP-30	125	Arthritis And Its Characteristics In Patients With Familial Mediterranean Fever	Selcan Yenigun
PP-31	126	Comorbidity Profile of Familial Mediterranean Fever Patients Varies by Treatments	Şerife Coşkun
PP-32	127	Clinical Features of Patients with Familial Mediterranean Fever Over 50 Years of Age: A Single-Center Experience	Sura Nur Baspınar
PP-33	128	Inflammatory comorbidities in pediatric Familial Mediterranean Fever; A Single Referral Center Experience	Nilüfer Tekgöz
PP-34	129	Long term efficacy of anti IL1 inhibition in severe joint involvement in FMF patient	Raffaele Manna
PP-35	131	Report on a cohort of Italian patients affected by Familial Mediterranean Fever: phenotype and genotype characterization, with a specific focus on associated immune mediated disease	Celeste Ambra Murace
PP-36	132	Genetic features in Italian and Lebanese subjects with Familial Mediterranean Fever	Mohamad Khalil
PP-37	136	Anakinra treatment in a patient with end-stage renal failure due to FMF-associated amyloidosis: 5.5 years of experience	Ahmet Kıvanç Cengiz
PP-38	137	Recurrent Oral Ulcers Found to Be Caused by Familial Mediterranean Fever 20 Years After Its Onset: Case Report	Areej Abusalim
PP-39	138	Coexistence of familial Mediterranean fever and hidradenitis suppurativa	Filiz Cemre Taşgöz
PP-40	139	Refractory sweet syndrome in association with Familial Mediterranean Fever: a case report	Zeynep Toker Dincer
PP-41	141	Impact of disease activity on hepatitis B vaccination responses in patients with colchicum resistant familial Mediterranean fever	Sıla Atamylıdız Uçar
PP-42	142	Evaluation of the health-related quality of life scale (FMF-QoL) in pediatric patients diagnosed with familial Mediterranean fever	Kadir Ulu
PP-43	146	The Impact of Different MEFV Genotypes on Clinical Phenotype of Patients with Familial Mediterranean Fever: Special Emphasis on Joint Involvement	Esmaslan
PP-44	149	Serum levels of citrullinated histone H3 as a marker of neutrophil extracellular traps among patients with Familial Mediterranean Fever	Feyza Nur Azman
PP-45	151	Long-Term Follow-Up And Outcomes Of Colchicine Discontinuation In Patients With Familial Mediterranean Fever	Selen Duygu Anık
PP-46	156	Fabry disease accompanied by Familial Mediterranean Fever: A case report	Neslihan Gökçen
PP-47	161	Colchicine compliance in patients with Familial Mediterranean Fever-related Amyloidosis	Berna Yurttaş

**Poster Preparation Guidelines**

You can print your poster in dimensions of 70 cm width by 90 cm height and display it on the poster boards at the congress center on May 3, 2024. Posters must be collected by the authors on May 5, 2024.

You can contact the Congress Organization Secretariat for any questions you may have regarding the subject via e-mail ([istanbul1@devent.com.tr](mailto:istanbul1@devent.com.tr)).

Registration for the congress is mandatory in order for the presentation of the papers to be included in the symposium book.
